# About AHARA

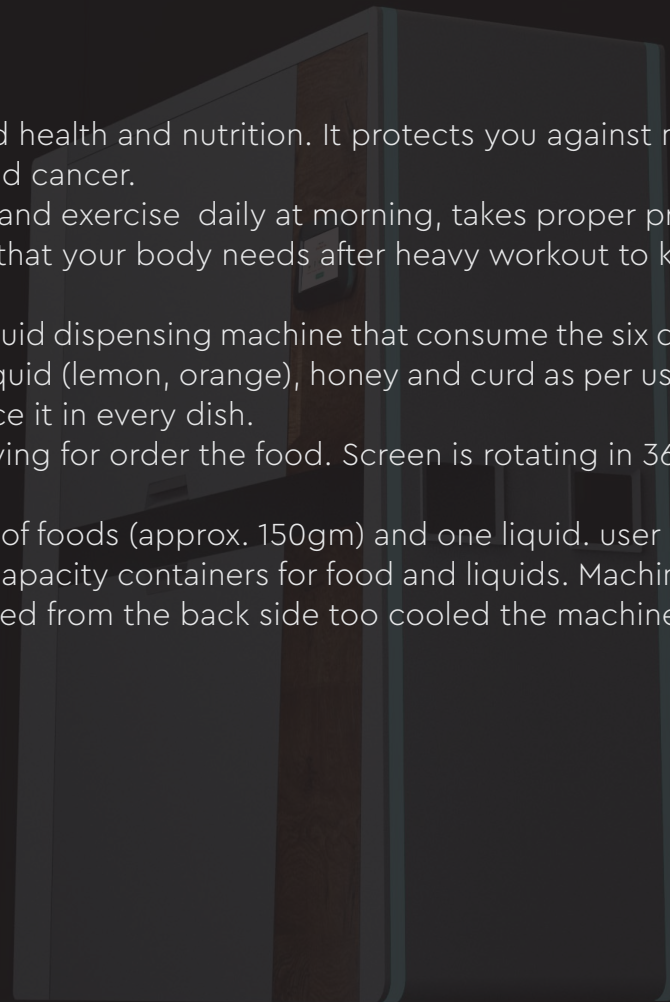

A healthy diet is essential for good health and nutrition. It protects you against many chronic noncommunicable diseases, such as heart disease, diabetes and cancer.

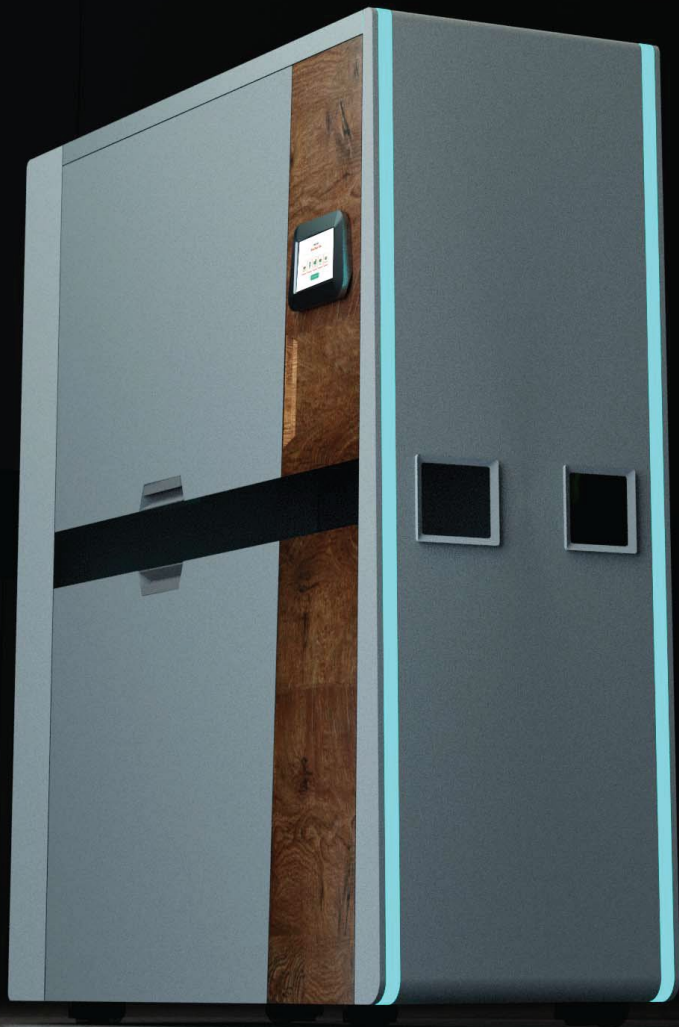

People who do intensive workout and exercise daily at morning, takes proper proteins to stay healthy and work the way it should. Good amount of proteins that your body needs after heavy workout to keep your health better .

Ahara is a contact less food and liquid dispensing machine that consume the six different types of sprouts (mung, redbeans, lentil, pea, alfalfa, mustard), four liquid (lemon, orange), honey and curd as per users need. Ahara have inbuilt lemon cutting assembly, cuts the lemon and place it in every dish.

A flexible high quality screen is giving for order the food. Screen is rotating in 360 degree with easily move in any direction.

At a time user can order two type of foods (approx. 150gm) and one liquid. user can order only food and liquid individually also. Machine have large storage capacity containers for food and liquids. Machine is closed and airfreighting from all sides too keep food safe. A AC is provided from the back side too cooled the machine for all time at 16 degree temp.
